## Press Release

THOUGHT OUT... Announces **NAJA** - Flexible Rotating Stand for iPod nano  
Connecticut USA - July 9, 2008

THOUGHT OUT..., accessory and product design company, announced NAJA a downsized flexible rotating stand for iPod nano.

To follow suit with the NAJA King product line for transportable iPhone and iPod touch flexible stands, NAJA [pronounced NaHa] for iPod nano is added to our quality portable media device holders. The 36" soft flexible coil is slender yet exclusively designed\* for secure form-able positioning for the iPod nano. With small coiling abilities it is compact enough for travel and it is a great solution for those long flights, and yes it does nicely wrap around the back of your neck for hands free entertainment. NAJA can be shaped to be used in virtually any location you can think of, home, office, car, boat, etc.

- For iPod nano - 3rd generation
- 1/4" diameter x 36 inch flexible coil\*
- Rotating head 360 degrees
- Non marking secure compression grip holding (device stays put)
- All steel construction (Life time product)
- Made in the USA
- Patent Pending #61053494

## Pricing and Availability

NAJA flexible rotating stand for iPod nano, MSRP \$29.99, is now shipping and available from our website at [www.thoughtout.biz/NAJA](http://www.thoughtout.biz/NAJA) for world wide shipping.

## About the Company

Founded in New England in 2004, Thought Out is a motivated company that strives to create great products and believes that innovation never ends. Thought Out makes accessories to meet any growing technological need. For today and the future, we are here to design the best, highest-rated products in a competitive industry.

With only American design, materials, and labor, all of the products are proudly produced within the United States, while maintaining a competitive edge.

\* Coil is exclusively designed by THOUGHT OUT...Company for NAJA to support iPod nano.
